DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 5-12, and 60-65, drawn to a method for chromatographic separation of a molecule.

Group II, claim(s) 50, drawn to a method for separating a molecule from a solution.

Group III, claim(s) 51-65, drawn to a method for separating a molecule from a solution.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: While the groups do share the special technical feature of a method for separating molecules on a charged stationary phase with a charged amphiphatic sugar polymer, the special technical feature does not offer a contribution over the prior art. Collins et al. (US 6,582,594) discloses a process of making a charged amphiphatic sugar polymer for use as a stationary phase for the purification of non-polar extractives (abstract).

3. A telephone call was made to John Van Amsterdam on September 26, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 4153

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
